

ST. LAWRENCE FLUORSPAR PROJECT

MILLWRIGHT

Canada Fluorspar (NL) Inc offers an exciting and challenging opportunity for several individuals to join its mill construction/commissioning team as a Millwright. **This position is temporary in nature but may lead to longer term opportunities depending on personal performance and operational requirements.**

Key Job Responsibilities:

- Install, align, maintain, dismantle machinery, such as pumps, heavy mechanical equipment, conveyor systems, pulleys, mechanical clutches, gear boxes, hydraulics and pneumatic control systems
- Ensuring compliance with all established policies and standard operating procedures and ensuring all tools are maintained and kept in an orderly condition
- Performing a variety of miscellaneous duties and assignments as directed by supervisor

Skill & Experience:

- Possess a valid Interprovincial trade qualification certificate as a Millwright
- Minimum of five (5) years' experience working in a heavy industrial setting
- Must have previous experience working in a construction, mill operation and maintenance environment
- Ability to detect, isolate, and identify irregularities and malfunctions in machinery and equipment
- Welding training and experience would be considered an asset
- Must successfully complete all pre-access requirements, including pre-access drug and alcohol screening

To apply, please forward a cover letter and by **June 16, 2017** to:
