

ST. LAWRENCE FLUORSPAR PROJECT

Mine Survey Technician

Canada Fluorspar (NL) Inc. offers an exciting opportunity for a highly motivated and enthusiastic individual to join its project team as **Mine Survey Technician**. This position is temporary in nature but may lead to longer term opportunities depending on personal performance and operational requirements. The successful candidate(s) will be expected to work on a 4 day on / 4 day off work rotation, 12-hour shift.

Reporting to the Mine Superintendent, the incumbent will provide a survey service while adhering to the mine's survey standards, which contributes to the objectives of the mine operations department.

Key Job Responsibilities:

- Carrying out field surveys to help calculate and coordinate blast design layouts
- Updating ore/waste contacts for ore calculation and modelling
- Plotting surface features of the mining area on maps and field sheets
- Conducting topographic surveys using total station and GPS methods
- Assisting in the preparation of technical reports and prepare drawings, such as site plan and design drawings, using AutoCAD and specialized software
- Preparing accurate reports and maintaining accurate records

Skill & Experience:

- Possess a Diploma/Degree in Geometrics, Civil Engineering Technology or equivalent
- A minimum of two (2) years' open-pit surveying and/or civil earthworks construction experience
- Proficient in AutoCAD, GPS Survey Equipment, Total Stations, Survey Software and MS office suite of programs
- Knowledge of computerized surveying calculations and techniques
- Interested candidates must possess a valid driver's license

To apply, please forward a cover letter and resume by **June 23, 2017** to:
