

ST. LAWRENCE FLUORSPAR PROJECT

PLANT MAINTENANCE SUPERVISOR

Canada Fluorspar (NL) Inc. is currently seeking an experienced supervisor to oversee the planning, organization, and direction of a multi-trade plant maintenance team. As a Maintenance Supervisor, you will focus on continuous improvement of the predictive/preventative maintenance systems while ensuring proper mechanical operation and maintenance of all plant and related auxiliary equipment.

KEY JOB RESPONSIBILITIES:

- Efficiently plan, coordinate, schedule and supervise all maintenance activities for the plant
- Oversee the safety of the plant maintenance program by ensuring workers are properly trained in job duties, safety procedures and company policies
- Recommend changes in standards, work methods, equipment, and process modifications to improve performance, productivity and/or profitability
- Advise of all problems that might affect plant capacity to product in a safe and/or efficient manner
- Review, collect, and/or forward labour, maintenance and operating data for all required reports
- Ensure proper maintenance records for upkeep and schedules are adhered to accordingly

SKILL & EXPERIENCE:

- Degree or diploma in a technical field, or possess a valid Interprovincial trade qualification certificate in a related field
- Interested candidates should possess a minimum of five (5) years' experience in an industrial maintenance environment
- Previous experience in a supervisory capacity is essential, along with strong planning, problem solving, troubleshooting, communication, project management, and leadership skills

To apply, please forward a cover letter and resume by **October 15, 2017** to:
