

ST. LAWRENCE FLUORSPAR PROJECT

CRUSHER PLANT SUPERVISOR

Canada Fluorspar (NL) Inc. are looking for experienced and motivated **Crusher Plant Supervisor** to join its team. The Crushing Plant Supervisor will be responsible for the day to day plant operations to include all aspects of the crushing plant, including the development of fine ore to stockpile management. **This position is temporary in nature but may lead to longer term opportunities depending on personal performance and operational requirements.**

Key Job Responsibilities:

- Organizes, plans, and schedules the day to day activities of the crushing plant to achieve the daily and weekly production goals established by the Process Plant
- Work closely with management to implement daily, weekly and monthly operational plans and objectives, in accordance with process plant requirements
- Understands and personally evaluates the potential capacities of the equipment (primary and secondary crushing plant and mobile equipment) and makes recommendations and adjustments to achieve daily, weekly, and monthly production goals
- Establish methods to meet work schedules and confer with managerial and technical personnel, other departments and contractors to resolve problems and coordinate activities
- Oversee the safety of the crushing operation by ensuring workers are trained in job duties, safety procedures and company policies

Skill & Experience:

- Interested candidates should possess a minimum of five (5) years' experience in aggregate operations with understanding of mineral processing equipment such as crushers, screens, conveyors, and associated mobile equipment
- Previous experience in a supervisory capacity is essential, along with a proven track record in a production environment
- Solid communication and interpersonal skills required, along with the ability to work with minimal supervision while working under pressure.

To apply, please forward a cover letter and resume by **February 28, 2018** to:
