

ST. LAWRENCE FLUORSPAR PROJECT

PROCUREMENT AND LOGISTICS SUPERINTENDENT

Canada Fluorspar is a growing Canadian based mining operation, owned by Golden Gate Capital, a privately held enterprise with over \$15 billion in committed capital across several verticals. With expanding operations in Newfoundland, Canada Fluorspar has developed a large fluorspar project in St. Lawrence, Newfoundland and Labrador.

The Procurement and Logistics Superintendent will oversee the efficient planning and oversight of ore transportation and delivery from plant to port, including vessel chartering for both domestic and international markets, all road logistics and procurement and inventory management. Responsible for identifying reliable suppliers and leading best-value negotiation of all required consumables and services, for awarding and executing contracts, purchase orders and long-term supply agreements. Will lead the Procurement and Logistics team in supporting all aspects of fluorspar mining operations and ensure purchasing, warehousing and logistic KPI's are achieved.

Success in this position requires a candidate with a minimum of five (5) years relevant work experience in a procurement and logistics role, preferably within the mining industry and/or within a complex logistical environment, that includes vessel chartering experience. Demonstrating a high degree of commercial awareness, excellent interpersonal and communications skills with the ability to interact respectfully with individuals at all levels of the organization. Our successful candidate will utilize their background in importing and exporting, customs and excise regulations to recommend proper courses of action and determine appropriate resolutions to various issues related to the environment. A strong team leader, skilled at building relationships across the organization, who maintains a positive attitude and customer focused approach.

This role requires full-relocation to the beautiful Burin Peninsula, NL. With it you will join a flourishing mining operation at the beginning of it's production and join a high-performing dynamic team committed to the long-term success of the operation.
