

## ST. LAWRENCE FLUORSPAR PROJECT

# PLANT MAINTENANCE ELECTRICIAN

Canada Fluorspar (NL) Inc offers an exciting and challenging opportunity for an individual to join its Plant Maintenance Team. This position is temporary in nature but may lead to longer term opportunities depending on personal performance and operational requirements. The successful candidate(s) may be expected to work on a 7 days/nights on / 7 day off work rotation, 12-hour shift.

### Key Job Responsibilities:

- Installing, examining, replacing or repairing electrical wiring, receptacles, switch boxes, conduits, feeders, fibre-optic and coaxial cable assemblies, lighting fixtures and other electrical components
- Performing repairs, service, maintenance on industrial electrical equipment and associated electrical and electronic controls
- Responding to emergency and non-emergency situations to resolve various types of electrical issues/problems during operations
- Ensuring compliance with all established policies and standard operating procedures and ensuring all tools are maintained and kept in an orderly condition
- Performing a variety of miscellaneous duties and assignments as directed by supervisor

### Skill & Experience:

- Possess a valid Interprovincial trade qualification as an Industrial Electrician, or possess a valid Interprovincial trade qualification in a related field and a minimum of five (5) years' relevant trade experience
- Previous experience in Lock-out process / Tag Authority is desirable
- Ability to work under pressure and troubleshoot equipment in a plant production environment to minimize equipment downtime is a necessity
- Demonstrated ability to diagnose defects in processing equipment using wiring and schematic diagrams and test instruments
