

ST. LAWRENCE FLUORSPAR PROJECT

PROCESS SUPERVISOR

We are currently seeking applications from individuals who are interested in joining our Plant Operations Team as a **Process Supervisor**. We are looking for a candidate who brings proven industry experience and is willing and able to work as part of a small work team. **This position is a full time permanent position and the successful candidate will be expected to work on a 7 days on / 7 day off work rotation, 12-hour shift.**

Key Job Responsibilities:

- Responsible for coordinating the allocation of personnel and machinery to ensure efficient and effective achievement of set production objectives
- Maintaining capacity of materials to ensure production targets are achieved, resolving work problems and recommending measures to improve productivity
- Communicating process maintenance requirements and taking action on any deviation to minimize production delays and breakdowns
- Oversee the safety of the process plant operation by ensuring workers are trained in job duties, safety procedures and company policies

Skill & Experience:

- Interested candidates should possess a minimum of five (5) years' experience in a mineral processing production plant environment, preferred
- Previous experience in a supervisory capacity is essential, along with a proven track record in a production environment
- Solid communication and interpersonal skills required, along with the ability to work with minimal supervision while working under pressure.
- Ability to learn from others and adopt best practices while maintaining a strong focus on safety, integrity and reliability

To apply, please forward a cover letter and resume by 5:00 P.M. on **August 17, 2018** to:
