

ST. LAWRENCE FLUORSPAR PROJECT

CRUSHER OPERATOR

Canada Fluorspar (NL) Inc are currently seeking an experienced crusher operator(s) to operate its primary crusher to maximize the flow of material to the Process Plant. We are looking for candidates who embrace change, adapt fast, make decisions quickly, and possess self-confidence and leadership skills. **The shift rotation schedule will be seven (7) days working with seven (7) days rest, twelve (12) hours per day.**

DUTIES / RESPONSIBILITIES

- Operating crusher equipment in accordance with standard operating procedures (SOPs)
- Completing pre-start checks on crusher and monitoring crusher operating parameters
- Making recommendations on improvements to material flow to supervisor
- Maintaining the operational integrity of crushing and conveying equipment by conducting regular inspections
- Completing and maintaining logs and reports, ensuring accuracy in reporting of data
- Assisting with maintenance, performing miscellaneous labour activities and operating various auxiliary equipment as and when required

EDUCATION / EXPERIENCE / SKILL

- Interested candidates should possess a minimum of two (2) years' crushing experience
- Possess a solid understanding of equipment such as crushers, screens, conveyors, and associated mobile equipment
- Previous experience operating a skid steer and small front-end loader considered an asset
- Mechanically inclined and able perform routine maintenance on equipment
- Must be able to lift 10 lbs with each hand and up to 50 lbs with both hands

To apply, please forward a cover letter and resume by 12:00 PM on **November 14, 2018** to:
