

ST. LAWRENCE FLUORSPAR PROJECT

Jr. Geologist/Geological Technician

Canada Fluorspar (NL) Inc. is seeking a highly motivated and team-oriented individual to join its geology team as a Geological Assistant. **This position is temporary in nature and the duration is undetermined at this time.**

Reporting to the Senior Geologist, this position combines hands-on physical work with office work to assist with tasks related to the AGS Project. We are looking for a candidate who brings a strong work ethic and is willing and able to work as part of a small work team.

DUTIES / RESPONSIBILITIES

- Assist Mine Geologists with various tasks in the field related to Grade Control and Ore Handling
- Complete sampling activities at various locations at the AGS Project
- Clean and maintain work area to meet or exceed company's housekeeping standards
- Perform various administrative tasks including data entry and compilation of lab results in a timely manner
- Perform miscellaneous labour activities as required, these may include: operating pumps and hoses to wash bedrock exposures for mapping, core moving, equipment handling, communicate with contractors on-site.

EDUCATION / EXPERIENCE / SKILL

- Possess a post secondary education in earth sciences (geology) or a technical diploma or certification in a related field, along with previous experience in a similar role
- Be registered with PEGNL as a G.I.T. or P.Ge, or AETTNL as a CET
- Demonstrated ability to follow written and verbal instructions to complete assigned tasks in an independent and efficient manner
- Proficient with computers using various software applications, including MS Office Suite
- Must be able to lift 10 lbs with each hand and up to 50 lbs with both hands
- Ability to work in all weather conditions / environments: rain, wind, heat, muddy, dusty, uneven-rocky terrain
- Interested candidates must possess a valid driver's license

To apply, please forward a cover letter and resume by **5:00 P.M. on May 17th, 2019** to:
