

ST. LAWRENCE FLUORSPAR PROJECT

Health & Safety Advisor

Canada Fluorspar (NL) Inc. is seeking a highly skilled, motivated and team-oriented individual to join its team as a Health & Safety Advisor. We are seeking candidates with heavy industrial construction experience and who are willing and able to work as part of a small integrated work team.

Reporting to the Health & Safety Coordinator, the incumbent will be responsible for coordinating the implementation, maintenance and audit of an effective health, safety and environment management system that supports the overall strategy of Canada Fluorspar (NL) Inc.

Duties will include coordinating and delivering Health & Safety training initiatives to create awareness and ownership of the various systems; conducting workplace inspections and audits; ensuring standards for safe working conditions are met and maintained; and correcting hazards by developing strategies to control risk in the workplace. The position will also be responsible for ensuring continuous adherence to legal requirements, standards and organizational objectives; advising and assisting various operations in accident investigations, root cause analysis and accident prevention; alcohol and drug testing; and providing technical advice and guidance to workers and contractors on health, safety and environment issues and concerns.

The ideal candidate will possess a post-secondary education in occupational health and safety or related field, along with a minimum of five (5) years relevant experience in a heavy industrial or mining environment. Intermediate computer skills, along with strong verbal and written communication skills are essential for this position. Interested candidates must also possess a valid driver's license.

To apply, please forward a cover letter and resume by **12:00 P.M. on August 14th, 2019** to:
