

ST. LAWRENCE FLUORSPAR PROJECT

Core Logging Geologist

Canada Fluorspar (NL) Inc. ("CFI") are seeking two highly motivated and team-oriented individuals to join its Exploration team as a Core Logging Geologist.

Reporting to the Senior Geologist, these positions will work a ten (10) day on / 4 day off work rotation. This is a hands-on, physical role and its primary focus is to support several planned exploration activities. We are looking for candidates who bring proven industry experience and are willing and able to work as part of a small work team. ***These positions are temporary in nature.***

DUTIES / RESPONSIBILITIES

- Act as a technical resource for drilling contractors (i.e. set-up of diamond drill sites at specified azimuth and dip, assist in coordination of field activities)
- Perform regular inspections and addresses issues by identifying short-term and long-range effects associated with drilling activity
- Perform geological core logging duties in accordance with CFI's Core Logging Guidelines
- Input data for core logs, drilling shift reports, summary information and generate reports as directed by the supervisor and/or delegates
- Additional responsibilities to support the project as needed

EDUCATION / EXPERIENCE / SKILL

- Possess a post secondary education in geology and be registered as a P. Geo or GIT with PEGNL
- Minimum of five (5) years experience in mineral exploration, including previous core logging experience
- Demonstrated ability to follow written and verbal instructions to complete assigned tasks in an independent, highly organized and efficient manner
- Proficient with computers using various software applications, including MS Office Suite
- Must be able to lift 10 lbs with each hand and up to 50 lbs with both hands
- Interested candidates must possess a valid driver's license

To apply, please forward a cover letter and resume by **5:00 P.M. on September 2nd, 2019** to:
