

ST. LAWRENCE FLUORSPAR PROJECT

ELECTRICIAN(S)

Canada Fluorspar (NL) Inc has an immediate opening for an **Electrician(s)** to join its team. This is a hands-on, physical role and its primary focus will be to support several planned construction activities over the next **three (3) to six (6) months**.

Key Job Responsibilities:

- Installing electrical and instrumentation equipment and associated cable tray and cable
- Responding to emergency and non-emergency situations to resolve various types of electrical issues/problems during construction
- Ensuring compliance with all established policies and standard operating procedures and ensuring all tools are maintained and kept in an orderly condition
- Performing a variety of miscellaneous duties and assignments as directed by supervisor

Skill & Experience:

- Possess a valid trade qualification as an Electrician
- Minimum of three (3) years of recent related experience - working with electrical heat trace in an industrial or heavy commercial environment
- Demonstrated ability to diagnose defects in shop and building equipment, using wiring and schematic diagrams and test instruments
- A working knowledge of power distribution systems and programmable (PLC) controllers
- Demonstrated ability to read/understand wiring and schematic drawings
- Ability to learn from others and adopt best practices while maintaining a strong focus on safety, integrity and reliability
- To be successfully considered for this role you must complete all pre-access requirements, including pre-access drug and alcohol screening.

To apply, please forward a cover letter and resume by **12:00 p.m. on May 4th, 2020** to:
