

ST. LAWRENCE FLUORSPAR PROJECT

Industrial Insulator

Canada Fluorspar (NL) Inc has an immediate opening for an experienced insulator(s) to join its operations team. This is a hands-on, physical role and its primary focus will be to support several planned construction activities over the next six (6) to eight (8) weeks. **The successful candidate will be expected to work on a 4 day on / 3 day off work rotation, 10-hour shift, Monday to Thursday.**

DUTIES / RESPONSIBILITIES

- Apply, remove and repair thermal insulation on all types of industrial equipment (e.g. ducting piping, heat exchangers, tanks, vessels)
- Read and interpret drawings and specifications to determine insulation requirements
- Measure and cut insulating material and coverings to the required shape and dimension
- Fit insulation around obstructions or shape insulation materials and protective coverings
- Install vapour barriers and finish insulated surfaces by applying metal cladding, canvas, plastic sheeting, cement and chalking

EDUCATION / EXPERIENCE / SKILL

- Ideal candidate will possess formal training in a relevant field, along with a minimum of two (2) years plant and/or construction experience
- Must be knowledgeable in types of insulation used in industrial area
- Able to read and understand blue prints, P&ID's, piping insulation specifications
- Must be able to lift 10 lbs with each hand and up to 50 lbs with both hands
- Self-motivated and able to work with minimal supervision

To apply, please forward a cover letter and resume **by 5:00 P.M. on September 15th, 2020** to:
