

## ST. LAWRENCE FLUORSPAR PROJECT

# Environmental Monitor

Canada Fluorspar (NL) Inc. offers an exciting opportunity for a highly motivated and enthusiastic individual to join its project team as an **Environmental Monitor**.

This position is temporary in nature. Start date to be determined.

Working closely with the Environmental Technician, this position will work a five (5) day on / two (2) day off work schedule. The successful candidate will carry out field inspections of operational activities related to the project and conduct monitoring and sampling programs as required by environmental permits, regulations and programs.

Additional responsibilities include the collection, field analysis and shipping of samples while following established site sampling and analytical methods; inputting, maintaining and generating reports derived from an environmental database; investigating and documenting environmental site surveillance reports and incidents; ensuring environmental reports are filed and copies are sent to the appropriate stakeholder; and coaching and maintaining open communications with all workers with respect to environmental protection.

The ideal candidate will possess a diploma or certificate in related field, or equivalent on-the-job training and experience. Solid computer skills, proficient in Microsoft Office, along with relevant knowledge of environmental regulations and codes are essential. This position requires field and office work, as well as, the ability to work in various weather conditions. Strong verbal and written communication skills are essential for this position. Interested candidates must possess a valid driver's license.
