

## ST. LAWRENCE FLUORSPAR PROJECT

# Laboratory Technician

Canada Fluorspar (NL) Inc. offers an exciting opportunity for highly motivated and enthusiastic individual(s) to join its plant operations team as **Laboratory Technician**. This position is **TEMPORARY** in nature.

Reporting to the Laboratory Supervisor, the successful candidate(s) will be primarily responsible for conducting sample preparation, analysis, maintenance of equipment and ensuring the technical and operational performance of the site laboratory is carried out in line with CFI's standards

### **Key Job Responsibilities:**

- Collect and log incoming samples and prepare samples by drying, crushing, and pulverizing
- Perform assays using wet and instrumental chemistry to produce accurate and precise data
- Perform screen analyses on mill samples and generate accurate results in a timely manner
- Ensure strict safety procedures and safety checks are followed
- Clean and maintain laboratory and laboratory equipment to meet or exceed CFI's housekeeping standards
- Provide assistance and support to Mill Operations when required

### **Skills & Experience:**

- High school diploma or equivalent
- Technical laboratory training, combined with hands-on laboratory experience would be highly regarded
- Self-motivated and active team players, with strong communication skills and with the ability to read and understand work instructions
- Working knowledge of Microsoft Office - including but not limited to Excel, Word, PowerPoint
- Must be able to lift 10lbs with each hand and up to 50lbs with both hands

---

To apply, please forward a cover letter and resume by **12:00 P.M. on January 18th, 2021** to:

### **Posting #2021-001 – Laboratory Technician**
