

ST. LAWRENCE FLUORSPAR PROJECT

MOBILE MAINTENANCE PLANNER

Canada Fluorspar Inc. is seeking a highly motivated and team – oriented individual to join its team as **Mobile Maintenance Planner**. The ideal candidate will have demonstrated business acumen and the ability to see initiatives through to completion in a fast-paced work environment undergoing dynamic change.

Reporting to the Mobile Maintenance Supervisor, this position is based at the mine site in St. Lawrence on a five (5) days on/two (2) days off work rotation. This position will be responsible for scheduling resources for preventative and predictive maintenance to maximize the availability and productivity of all equipment at least cost.

The successful applicant will be accountable for maintaining the computerized maintenance information system by analyzing and monitoring production needs, resource availability and data integrity and recommending improvements that align with business objectives such as but not limited to MTBF (Mean Time Between Failure), tire life, GET (ground engaging tools) consumption....

They will be planning and coordinating mobile maintenance activities based on workorders, health and safety, health & environmental practices, machine hours, machine efficiency.

They will be implementing and maintaining the cost reporting system that aligns with production plans and cost reduction.

EDUCATION / EXPERIENCE / SKILL

- Previous computerized maintenance system and/or computerized enterprise resource planning is necessary.
- Pro-efficient in Microsoft Excel.
- Prior part handling, warehousing experience is an asset.
- Mechanical experience is an asset.

- To be successfully considered for this role you must complete all pre-access requirements, including pre-access drug and alcohol screening.

To apply, please forward a cover letter and resume by **5:00 pm, June 20th, 2021** to:
